

ParishOnline

Powerful, Affordable Mapping Software for Parish Councils

Parish Online is recommended by
Came & Company Parish Council Insurance

What is Parish Online?

Parish Online is a web-based mapping system which allows parish staff to:

- Identify assets for insurance purposes
- View Ordnance Survey maps, aerial photography and other relevant data (SSSIs AONBs etc)
- Create and maintain parish plans
- Record and manage incidents in the community (graffiti, fly-tipping etc)
- Print or email maps and records to anyone in the community

Benefits

- Parish Online is easy to use. No training required
- There's no software to install. It works on any computer with an internet connection
- All of your data is held in a remote, secure location so you can't lose it
- Reduces work and increases efficiency for the parish clerk
- Reduces problems with insurance claims

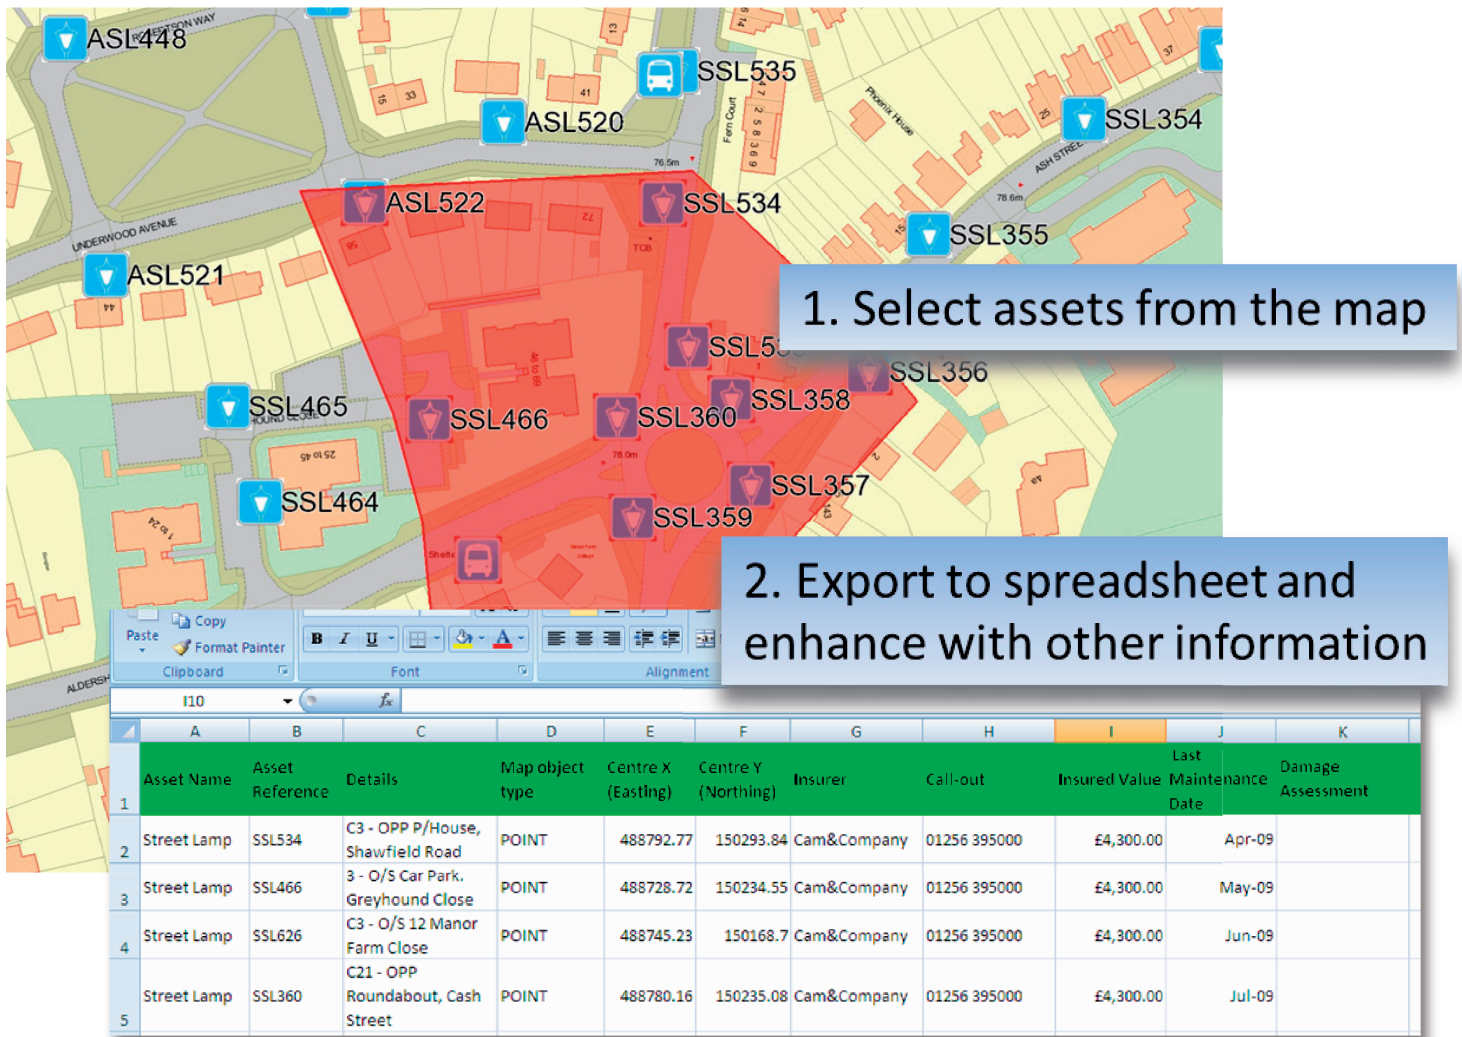

"Parish Online will transform the way you manage your parish business.

All your assets and plans can now be stored in a secure, digital form using up-to-date maps and photographs"

Alastair Clark, Chairman of the Hart District Association of Parish and Town Councils

Insurance Asset Register

The screenshot displays the Insurance Asset Register interface. At the top, a map shows a residential area with various assets marked by icons and labels such as ASL448, ASL520, ASL521, ASL522, SSL535, SSL534, SSL354, SSL355, SSL465, SSL466, SSL360, SSL358, SSL356, SSL357, and SSL359. A red polygon highlights a specific area on the map. Below the map, a spreadsheet is shown with the following data:

	A	B	C	D	E	F	G	H	I	J	K
	Asset Name	Asset Reference	Details	Map object type	Centre X (Easting)	Centre Y (Northing)	Insurer	Call-out	Insured Value	Last Maintenance Date	Damage Assessment

Two blue callout boxes provide instructions:

1. Select assets from the map
2. Export to spreadsheet and enhance with other information

Here is an example from a parish showing how Parish Online can be used to maintain an Insurance Asset Register.

Firstly, assets can be selected by a user defined shape, e.g. an area affected by flood or fire.

Secondly, the details of the selected assets can be exported into a spreadsheet and enhanced with further information such as the insured value, details of the damage and other relevant information.

What does it cost?

- Parish Online only costs £10 per annum per 1,000 population (Plus a small one-off set up fee)
- This means that 70% of parishes will pay only £10 per annum
